

# LAKOTA EAST BASKETBALL

Dear Dr. Cha,

I wanted to express my appreciation for the time and energy you have invested in getting me back to playing basketball. The first time I had surgery it took me 12 months to return to my sport but with you, you promised to get me back in 6 months and you kept that promise. I'm back playing fully and doing what I love and I can't thank you enough. Even though I was just another patient you still treated me with great care and did your best to get me back and playing. I knew that I was fully back and playing how I wanted to be when in my second game after surgery I went 5-7 with 15 points and ~~3 steals~~ got 3 steals to go along with it. I couldn't of done that without not only being physically prepared but also mentally prepared and you allowed me to be both.

At the end of the day I ~~could~~ can't express how truly grateful and thankful I am for what you have done for me.

Sincerely,

Jacob (JT) Terry
