PAIN MEDICATION POLICY BEACON ORTHOPAEDICS AND SPORTS MEDICINE

The purpose of this agreement is to prevent any misunderstanding about the distribution of medications from the Beacon Orthopaedics and Sports Medicine physicians. Please initial each line on this form and sign at the bottom. As an Orthopaedic Surgeon and Sports Medicine physician, we are responsible for diagnosis and treatment of immediate orthopaedic related pain and complications. As such, the physicians do NOT prescribe long-term medication prescriptions to their patients. Any long-term medication use, be it narcotic, non-narcotic, or anti-inflammatory, must be obtained through a Primary Care Physician, or other designated provider. In the event surgical intervention is performed, we will ONLY prescribe narcotic pain medication for up to 2 prescriptions post-operatively, dependent upon the procedure. We may prescribe pain medication for severe or complicated fractures. As the patient, please understand medication provided should not be used at a more accelerated rate than originally prescribed, as this may result in being without medication for a period of time should violations occur. I understand that with the use of prescription monitoring software, your physician may verify if pain medication is being administered by any other source while being prescribed one of our physicians. I agree refills of prescriptions must be requested during regular office hours. No refills will be given after hours or on weekends. If a medication will need to be refilled over the weekend, please request the prescription by Thursday. ____ We request at least 24-hour notice for all refill authorizations, so as to ensure arrangements can be made. I, _____, understand these guidelines as described above and agree to follow the policy outlined in this document. I also understand the benefits and risks of the use of an opioid analgesic, including the potential risk of addiction.
